

AMENDMENTS IN THE SPECIFICATION:

Please amend the paragraph in the specification as follows:

[0078] In the photosensitive region 10, pixels 11_{mn} are arrayed two-dimensionally in ~~M~~ rows and ~~N~~ columns N rows and M columns. One pixel is arranged by adjacently positioning, in the same plane, a photosensitive portion 12_{mn} (first photosensitive portion) and a photosensitive portion 13_{mn} (second photosensitive portion), each outputting a current that is in accordance with the intensity of light that is made incident thereon. Thus in the photosensitive region 10, the photosensitive portions 12_{mn} and the photosensitive portions 13_{mn} are arrayed in a two-dimensionally mixed manner in the same plane.
